

**THE NEW FACE
OF LOGISTICS IN INDIA**

FLYWHEEL LOGISTICS

CHANGE IS HERE

Revolutionising the Indian domestic logistics scene, Flywheel Logistics has changed the way logistics business is conducted in India. Tech-savvy and **Smarter** than any service provider, Flywheel is at-par with the best in the industry or **Swifter**. Flywheel operates with standards that are **Safer** than industry benchmarks.

Founding principles of Flywheel are still the soul of our business - complete transparency and honest intentions. Fuelled by smart ideas and passion for logistics, Flywheel's energetic and professional core team is our backbone.

SMARTER

CHOOSING FLYWHEEL IS A SMART CHOICE, WHICHEVER WAY YOU LOOK AT IT.

Flywheel Logistics IT Environment (FLITE) incorporates our patented GPS enabled tracking application and online booking capability, both of which are now global best practices. Coupled with ePOD, we deliver the next level of logistics sophistication. Our customers experience this on www.flywheel.in

FLYWHEEL IS THE SWIFTEST AND THERE IS NO HIDING BEHIND EXCUSE.

SWIFTER

'Mission Critical Delivery'- Opt for 100% money back guarantee. Get assured delivery, even in flood, strike, bandh, jam situation; Else your money shall be refunded.

FLYWHEEL OFFERS THE GOLD STANDARD IN TRANSPORTATION SAFETY NORMS WITH FREE INSURANCE.

100% of the shipments are carried in ISO standard containers, GPS fitted and sealed. We use material handling equipment and trained personnel for handling consignments.

And if all this weren't enough, we have also gone ahead and insured 100% of the consignments we carry. Basic transit insurance is FREE for our clients. No extra charge.

SAFER

For terms and conditions, contact Flywheel office, now!

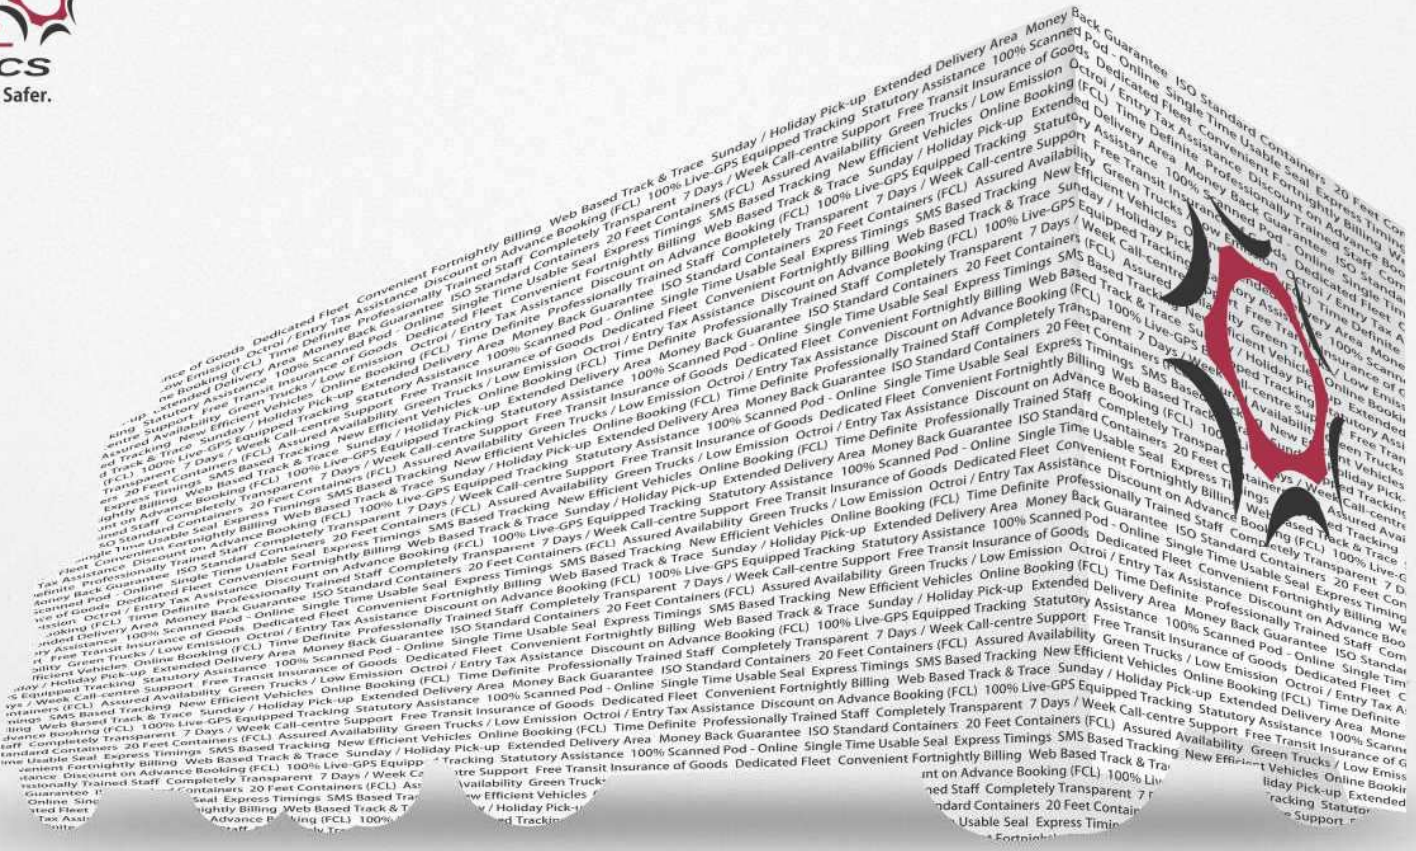

FLYWHEEL
Flywheel -n- an inertial energy storage device. It absorbs mechanical energy and serves as a reservoir. Its main function is to convert the stored kinetic/mechanical energy into motion. It is used to minimise variations in angular velocity and rpm.
